

<http://www.HIAGuide.org>

Created by the UCLA HIA Project, UCLA School of Public Health
with funding from the Robert Wood Johnson Foundation

Site contents

Completed HIAs: Database of HIAs done across the U.S. with a summary of each HIA and links to background information on each health topic addressed in the HIA and the methods used. Recent HIAs that have not yet been summarized and indexed, as well as in-progress HIAs are listed here.

Methods & Resources: HIA methods review pages detail common methodologies used for analysis in HIAs. Each Method summary page has links to all the HIAs employing that particular method. You will also find links to technical assistance, grant funding, journal articles, and relevant links to other websites.

Sectors & Causal Pathways: Summaries of the literature linking policy sectors with health and the pathways that connect a given policy with various determinants of health and health outcomes. Each Pathway and Sector summary page has links to all the HIAs addressing that particular Pathway or Sector.

Training: Downloadable presentations on HIA, training guides, and lists of upcoming HIA training workshops.

Legislation: List of HIA-related legislation by state for the U.S.

Using the search engine

Clicking on the **Completed HIAs** tab on the menu bar opens a dialog box for conducting a search of HIAs in the HIA-CLIC database. You can search by:

- **Keyword** (e.g. title, location, author, topic, etc.),
- **Pathway** linking proposed policies and projects with health determinants and outcomes (e.g. Physical Activity, Air Pollution, etc.)
- **Sector** of the proposed policy or project examined (e.g. Transportation, Education, Agriculture, etc.),
- **Methods** used in the analysis (e.g. checklists, quantitative modeling, census data, etc.)
- **Health effects** examined in the HIA.

You can also conduct quick keyword searches of HIAs using the **Sticky Bar**, which remains at the bottom of the screen (and can be minimized) as you navigate to different pages in the site.

Contact Us

We welcome your suggestions for improving the HIA-CLIC website and any questions you might have about HIA-CLIC contents or HIA more generally. Send us your suggestions and questions by clicking on the **Contact Us** link at the top right of any HIA-CLIC webpage.

If you have a completed HIA, a training announcement or other HIA-related material for posting on HIA-CLIC, please go to the **Contact US** page to download the **HIA-CLIC Update Form** (MS-Excel format), fill in the relevant information, then e-mail the completed form back to us.
